Dear Mr Evenson

Thank you for your recent letter.

We do monitor a record for the Fastest pedal-powered Channel crossing which is currently held by Paul Tucker.

The record details are as follows:

**Paul Tucker (UK) pedalled across the English Channel from a point near Cap Gris-Nez, France, to Folkestone, Kent, UK, in 7 hr 6 min on 21 May 2002. His 3.7 m (12.16 ft) boat *Escapade* was powered by a propeller turned by pedals.**

We trust this information is all you require.

Many thanks

Yours sincerely

Records Management Team
